Partnership PETRONAS LUBRICANTS & TONY KART

## TONY KART - PETRONAS

### **PETRONAS LUBRICANTS and TONY KART**

**Two historical brands in the International motorsport scenario are now signing a partnership for a new technical and commercial program. Petronas Lubricants enters the karting field with a foremost karting team, Tony Kart.**

During the developing process of its products, Petronas Lubricants has decided to further increase its commercial line and to steady its presence in the field of motorsport competitions by making an alliance with a prestigious brand, one of the most important ones in the world of karting, Tony Kart. A new technical and commercial contract has been established for the next years.

This agreement is once more confirming that Petronas Lubricants is willing to open up new markets with its products able to satisfy any performance request related to different kinds of cars and engines, even those who they never worked with before.

Petronas Lubricants International boasts over 30 different brands already, providing material for cars, motorbikes and industrial vehicles.

By this new partnership between Tony Kart and Petronas Lubricants a new and stimulating working project between two important brands, absolute leaders in their respective markets is now beginning to take shape. This can produce a new synergy which will be important to develop new products.

Petronas Lubricants will produce and put on the market the **ROKLUBE** brand, lubricants which Tony Kart Racing Team will continue to employ.

The partnership will include the whole competition field and the brands of the Petronas Lubricants will be visible on all official karts, cars and vehicles of the Tony Karts Racing Team.

Already working for the MotoGP, the F1, DTM and the Rally, Petronas Lubricants gives confirmation of its high-level products, technical know-how and exceptional partnerships.
