SOUTH GARDA KARTING - LONATO (BRESCIA, ITALY)

BRIDGESTONE TIRES AND PANTA FUEL AT THE WINTER CUP

Bridgestone tires are going to be used in all categories of the 20th Winter Cup to be held next 20-22 February. Panta will be the official fuel supplier instead. Online entry lists are open at the website www.southgardakarting.it.

Lonato del Garda (Brescia, Italy). Bridgestone tires will be employed by all categories of the forthcoming Winter Cup of Lonato del Garda (Italy). The race that is going to be the 20th edition of the event scheduled for next 20-22 February 2015, will see, as usual, KZ2, KF and KF Junior on track, but for the first time also Mini Rok.

Bridgestone rubber will therefore be on all karts, as the decision to adopt a unique supplier has been made to provide a better service to all the participants. This is going to be great news mainly for KZ2 drivers, that will therefore have the chance to try out the same tires that they will use in the CIK-FIA World and European Championship, and for Mini Rok's that already use this rubber in Rok Cup.

As regarding fuel, Panta will be the unique supplier with Panta's 98 octanes fuel distributed on track. Panta fuel will already be available for sale in the coming days at South Garda Karting for practice and tests.

Meanwhile, entry lists of the 20th Winter Cup are open and the entry form is available through the website www.southgardakarting.it.
