Enzo Bettamio - (KR / TM): *«At first sight, the Angerville circuit seems very interesting to me, since it alternates fast and sometimes extremely technical sections. As far as I could tell, the time is made especially in the 2nd intermediate. It will be essential to start ahead as the track is narrower than usual.»*

The event will officially start on Friday 26th with the Qualifying Practices and the first heats, which will last until Saturday. Finally, the Prefinal and the Final are scheduled for Sunday.
