

CENTURION RENTAL KARTS BY CRG - 2014

CENTURION, THE NEW EMOTION FOR RENTAL KARTS BY CRG IS COMING

CRG is proud to present its new and engaging rental kart Centurion, the machine born from the experience of the Italian firm that has been a world leading company in karting for more than 30 years now. CRG's range of products is quite interesting and can meet all needs. The Centurion line is completed by the R2R (Rent To Race) programme.

The latest 2014 International Kart Expo in Offenbach witnessed the official launching of CRG's gamma of Centurion line rental karts. The interest for this new initiative not only produced an overwhelming demand for the Centurion line rental karts, but also generated numerous solicitation to know more about the R2R (Rent To Race) rental kart aftermarket sales support program and rental related business initiatives.

The **Centurion** line rental karts and R2R program is a priority for CRG, which has forged its unparalleled winning reputation and level of excellence at the highest levels of international racing for over 30 years on the world circuit. The commitment from CRG will be total. CRG is resolved in dedicating the same resources and know how to their rental product as they are with their racing line chassis.

The primary objective with the **Centurion** line rental kart is to offer a product that will satisfy the most rigorous technical, safety, durability and performance criteria that today's indoor/outdoor tracks demand.
