

Press Release #06
Data: 23/03/2015

BRIDGESTONE SUPERCUP

Bridgestone Supercup has certainly received strong interest by a large number of drivers and teams, for its terrific prize and its particular organization, for the three rounds.

The success of the first round, in coincidence with the Winter Cup, confirms the great appreciation received with the Bridgestone event. Just because of the attention aroused and the desire to take part in the two remaining rounds of the Bridgestone Supercup, many teams have specifically requested to postpone the date of the second round, scheduled on next 3rd and 4th of April, on the South Garda circuit.

Due to the race calendar, particularly full of events at this stage of the season, many teams and drivers would be forced to miss, despite themselves, the second round.

The organization of the Bridgestone Supercup, sensitive to the needs of drivers and teams, has decided to meet the demand, by moving the date of the second round.

The new date of the Bridgestone Supercup's second round will soon be communicated; as already established, the track hosting the event will be the South Garda Karting circuit in Lonato.
