since qualifying. Here, the young Dutch driver got the pole-position hands down, on a track he had never seen before.

His positive trend continued in the two qualifying heats on Saturday, where he won twice. Only for a tyre issue he couldn't win Final 1, where he had to be content with the second place behind Hajek.

On Sunday, **Verstappen** ruled again and won the two remaining heats and Final 2 effortlessly.

Thanks to the second place achieved on Saturday and his victory on Sunday, **Verstappen's** lead over his competitors has widened: Negro is 77 points behind, Hayek 78.

The WSK Master Series race gave **Verstappen** another good reason to be optimistic in view of his main target: the forthcoming KZ European Champion to be held in Wackersdorf in two weeks' time.

private team KK1 with its driver, the Croatian **Kristijan Habulin**, who ran on a CRG-Modena. He placed fifth in the First final and sixth in Final 2.

**IN KF HORIO GOT STOPPED BY AN ACCIDENT.** In KF, the Japanese **Fuma Horio** on CRG-Bmb got stopped by an accident in the Final. It is a shame, because there were good expectations after his performance during qualifying. **Horio**, in fact, managed to enter the Superpole for the first time thanks to his 11th place. Then, he had a series of minor issues which culminated with the accident in the Final that prevented him from taking centre stage. On the other hand, the top ten was achieved by the Polish **Igor Waliiko** (7th) - on a CRG-Tm of the **Forza Racing** team - and the Danish **Kevin Rossel** (8th) of the **LH Racing** team.
