

Traffic prevented Stadsbader to take the Final in Finland

Gilles Stadsbader failed to access to the Final of the FIA Karting OK World Championship in Alaharma due to complicated Qualifying Practices.

The Belgian, in fact, found traffic in his fast lap and this placed him at the bottom of the grid for the heats. This occurrence, which took place on a track where it is extremely complex to overtake, forced him to work overtime during the heats.

Also due to the rain, Stadsbader failed to gain access to the Final, despite having given several positive performances like the 11th position with as many 11 positions recovered from the start.

Gilles Stadsbader - Forza Racing (Exprit / TM): *«It was a shame not to reach the final qualification on a circuit that I enjoyed so much. Unfortunately, this is motorsport, sometimes it takes very little to ruin everything. I want to thank Jamie, Karl and the entire Forza Racing team for the fantastic job they have done.»*
