

Bad luck for Stadsbader at the WSK Open Cup round 1

Gilles Stadsbader suffered a bad luck weekend in Lonato at the WSK Open Cup first round.

Already the qualifications started the problems, which relegated Stadsbader to the lower part of the ranking. In the heats tyre issues and an accident forced the young driver to recover in the Prefinal.

Being able to qualify for the final, starting from 29th place, the Forza Racing driver did his best to recover as many positions as possible, but another tyre problem prevented him to do better than the 23rd position.

Gilles Stadsbader, Forza Racing (Exprit/TM): «Weekend to forget due to the problems we suffered with the tires. Me and Forza Racing gave everything to take a good result, but was impossible to do better than P23.»

The Belgian is already ready to come back on track this weekend at the Trofeo delle Industrie scheduled in Lonato.
