

Tom Braeken: it's time to race again!

Tom Braeken's ready to return to racing this weekend in Holland, in Berghem, at the Belgian MAX Challenge / Chrono combined round.

For Braeken it's a return to competitions, but not to karting as he's dedicated himself to an intense test program together with Stan Pex and Senna Van Walstijn these past few weeks without scheduled races.

With SP Motorsport, the Belgian seems to have found an ideal environment to prepare for a 2020 completely dedicated to junior classes.

Tom Braeken, SP Motorsport: *"I can't wait to start racing again with the other drivers to see how I react to the advice and long training days with Stan and Senna. Together we tallied a good number of kilometers in anticipation of the second part of the season."*

The event will start on Friday with Free Practices, Saturday will be fully dedicated to the Official Practices and Qualifying Practices. The Finals are scheduled on Sunday.
