

Van Hoepen: it's World Championship time

The moment of truth has arrived for Laurens van Hoepen. This weekend he will be at Alaharma for the FIA Karting OKJ World Championship.

After the encouraging test race two weeks ago, the Ricky Flynn Motorsport driver arrives at the Mika Salo Circuit with the best intentions for the Junior World Championship, which this year shall be celebrated on one of the most technical and difficult European tracks.

For Hoepen it will be important to obtain a good result right from qualifying, so as not to have to take excessively large risks during the series of heats.

Laurens van Hoepen, Ricky Flynn Motorsport (FA / Vortex): *“The FIA Karting OKJ World Championship is the most delicate moment of the year. We arrive here after a very long season, of which this race represents indeed the top. I will give 100% together with my team to achieve the best possible result.”*

The competition begins on Friday with Free Practice and Qualifying Practices, followed by heats between Saturday and Sunday morning; in the afternoon it will be time for the Final.
